

Efflorescence Remover

A fluid applied cleaner that removes efflorescence from concrete, brick, block, stucco and other masonry surfaces.

January 2011

Physical Constants

Specific Gravity: (H₂O=1) 1.2 @ 24° C.

Solubility in Water: Soluble

Evaporation Rate: Same as water

pH: 1.0 (Corrosive)

Viscosity: More than water

Method of Application: Sprayer & pressure washer

Color: Yellow

COVERAGE RATE:

250-300 sq. ft. / gallon (Depends on roughness of surface & degree of efflorescence)

CONTAINER SIZES:

1-Gallon Bottles

5-Gallon Pails

55-Gallon Drums

PRODUCT ADVANTAGES

Efflorescence Remover is: Economical

*** Fast * Non-Flammable * Non-Toxic**

*** Easy Clean-up * Biodegradable**

*** Considered a 'Green Product'**

TYPICAL USES

For industrial, commercial and residential use on sidewalks, driveways, parking decks, floors, ramps, walls, brick, pavers, stucco, cinder block and stone.

For exterior use only.

Efflorescence Remover

Application Instructions

Limitations: Apply in good weather when air and surface temperature are above 45°F. and surface temperature is at least 5°F. above the Dew Point. For optimum application properties, materials should be between 70-90°F. prior to application. Maintain unused material in closed containers in protected storage at 40-90°F **out of direct sunlight. This product is considered Corrosive.**

SURFACE PREPARATION:

1. Always test on surfaces prior to application.
2. Water all surrounding grass and shrubs well before starting application of **Efflorescence Remover**. Clean all dirt and soil off surface using **EnviroClean Degreaser**. Apply **Efflorescence Remover** with a plastic garden pump sprayer.
3. Allow 3-5 minutes for **Efflorescence Remover** to foam and work to clean the

efflorescence. Time depends on the degree of efflorescence and the durability of the surface (**This is why Testing is important**)

4. Agitate concrete surface using a stiff nylon brush, broom or rotating concrete scrubber and a 3000 psi pressure washer. Professionals applicators can use Zero Tip /turbo nozzle if needed.
5. Power wash away all dirt and remaining **Efflorescence Remover** and rinse well. Re-apply on any remaining tough spots until all efflorescence is removed. Manufacturer recommends OSHA Compliance chemical gloves, eye protection and rubber boots.
6. Rinse everything with plenty of water. Rinse equipment immediately after use.
7. Apply **Trojan Masonry Sealer** to seal surface and to help keep future efflorescence from forming
8. Clean-up: Clean all equipment with **EnviroClean Degreaser** and

water.

Safety: Safe storage, handling and use dictate that adequate health and safety precautions be observed with this product. User is specifically directed to consult the current Material safety Data Sheet for this product as well as precautions contained on product labeling. **This product is considered Corrosive.**
